EDUCATION

Minerva University

San Francisco, CA

Bachelor of Science in Computational Sciences

September 2024- 2028

- One of the most selective universities globally (less than 1.5% acceptance rate); 120-person cohort representing 50+ countries
 - Completed full semesters in San Francisco, Tokyo, and Hyderabad; upcoming rotations in Buenos Aires and Berlin, building cross-cultural product and leadership competencies
 - Relevant coursework: CS110: Data Structures and Algorithms, FA50: Formal Analysis, AH113: Dynamics of Design
-

EXPERIENCE

Zimi Charge

Cape Town, South Africa

Business Development Intern

May 2025 - August 2025

- Owned end-to-end GTM strategy for Zimi's UK fleet market entry: conducted 5 C-suite discovery interviews, designed and launched a 200-respondent market survey, and synthesized competitive and customer insights into an actionable GTM playbook adopted by leadership
- Produced social media content and positioning materials to support pre-launch GTM and brand awareness initiatives
- Collaborated cross-functionally with product, hardware engineering, and VC platform teams.

Minerva University

San Francisco, CA

Sustainability Intern

September 2024- April 2025

- Designed and facilitated a 4-session "Sustainability Startup" workshop series reaching 21 students across 5 universities, with a post-series survey showing 85% of attendees reported increased confidence in building purpose-driven ventures
 - Collaborated with different departments to implement energy efficiency, waste reduction, and environmental awareness programs.
-

PROJECTS

Dream VC

Remote

Launch Into Venture Capital 2025 Fellow

May 2025- September 2025

- Sourced 40+ Pre-Seed and Seed-stage African Startups Across Blockchain, Gaming, and Creator Economy Sectors
 - Led preliminary screening and due diligence on 5+ Seed-stage startups using DaS frameworks, delivering written investment memos with risk/opportunity assessments
 - Built a valuation football field for a Series A African FinTech using 3+ early-stage valuation methodologies (DCF, comparable transactions, venture capital method), presented to senior fellows
-

SKILLS AND INTERESTS

- Technical: Proficient in Node.js, Express, and full-stack web application development; experienced in Figma.
- Business & Research: Skilled in market research and developing go-to-market strategies for startups
- Interests: Musical theatre. I dream to one day watch "Hadestown" in person.
